SMP Engineering Pty Ltd

ABN 24 144 729 000

Engineering Services deliver turnkey solutions

This work is multi-disciplined and covers civil, structural, mechanical, piping and electrical scopes. These works can be delivered on a lump sum, schedule of rates or cost plus basis.

We specialise in the project management of complex multidisciplined works, where we carefully guide the project through all phases.

ELECTRICAL & COMMISSIONING

SMP Engineering provides welding facilities and a comprehensive welding consultancy service. This allows us to qualify welders and procedures to Australian and International standards and codes.
